HISTORY OF ISPS

The International Slow Pitch Softball actually started as Florida Adult Softball in 2008 to serve as the governing body of Florida Adult Softball. As other states and countries emerged and affiliated, FAS was changed to ISPS in 2011 after the Puerto Rico expansion. ISPS exists to strengthen and promote the sport of slow pitch softball on a global level and assist in developing ISPS events, leagues, tournaments, and clinics around the world. ISPS also works with local, regional, and national ISPS affiliated organizations to develop and/or improve the sport of Slow Pitch Softball.

The ISPS (FAS) organization started after our founder, Manuel T. Ferrero III, lost his brother in Iraq in 2007. Manuel started a 6 team Men's League in honor of his brother, PFC Marius L. Ferrero, with his friends and family. From those first 6 teams, ISPS has now grown to 1000s of teams in over 15 States and 10 Countries with over 50+ annual events worldwide. ISPS now provides motivational goals for all levels of slow pitch softball athletes within the state they are organized. As well as an ultimate yearly goal of a World Championship.

ISPS is a member of multiple sports organizations and has received many rewards. Since 2008, ISPS has become one of the most celebrated and fastest-growing slow pitch softball organizations in the world. ISPS events are some of the highest anticipated events of the year in the international slow pitch softball community for athletes of a wide range of ages and abilities to achieve their recreational and fitness goals, improve self-esteem and create social relationships, as well as develop a sense of personal, team, state and/or national pride.
